

## KOKO-TAWA Butt Welding Machine

**Product Range: 5 kVA to 50 kVA Butt Welding Machines**

### Product Overview

Our 100% Copper Butt Welding Machines are engineered for precision and durability, catering to a wide range of welding applications. Available in various capacities from 5 kVA to 50 kVA, these machines are suitable for diverse butt welding tasks across different industries. Manufactured entirely in India, they come with a 3-year warranty on the transformer, ensuring reliability and customer satisfaction.

### Technical Specifications

Model	Power (kVA)	Input Voltage	Max Welding Capacity
BW-5	5	220V/440V	Up to 6 mm
BW-8	8	220V/440V	Up to 8 mm
BW-10	10	220V/440V	Up to 10 mm
BW-15	15	220V/440V	Up to 12 mm
BW-20	20	220V/440V	Up to 14 mm
BW-25	25	220V/440V	Up to 16 mm
BW-35	35	220V/440V	Up to 18 mm
BW-50	50	220V/440V	Up to 20 mm

*Note: Specifications are subject to change based on customization requirements.*

### Key Features

- **100% Copper Windings:** Ensures superior conductivity and efficiency.

ELECTRA and KOKO-TAWA are registered trademarks of Electra Koko Tawa Weld Pvt. Ltd. Unauthorized use is prohibited and subject to legal action. Verify the KOKO-TAWA brand to ensure authenticity and avoid imitations. Be aware of similar body-color machines; always check for the KOKO-TAWA mark to buy authentic and original ELECTRA products.

- **Customizable Control Panel:** Equipped with timers, limit switches, and fixtures to accommodate specialized welding tasks.
- **Robust Construction:** Built to withstand rigorous industrial applications, ensuring longevity and minimal maintenance.
- **Versatile Voltage Compatibility:** Operates efficiently on both 220V single-phase and 440V two-phase power supplies.
- **Precision Welding:** Designed for accurate alignment and strong welds across various materials and thicknesses.

## Applications

- **Automotive Industry:** Ideal for welding components like axles, drive shafts, and exhaust systems.
- **Wire and Cable Manufacturing:** Suitable for joining wires, cables, and conductors with precision.
- **Construction:** Used in fabricating steel structures, pipelines, and reinforcement bars.
- **Metal Fabrication:** Perfect for creating frames, brackets, and other metal assemblies.

## Customization Options

We offer full customization to meet specific welding requirements, including:

- **Timers:** For precise control over welding duration.
- **Control Panels:** Tailored interfaces for user-friendly operation.
- **Limit Switches:** To enhance safety and operational efficiency.
- **Specialized Fixtures:** Designed for unique welding applications.

## Warranty

We stand by the quality of our products with a **3-year warranty on the transformer**, ensuring peace of mind and reliable performance.

## Why Choose Our Butt Welding Machines?

- **Made in India:** Proudly manufactured domestically, supporting local industry and ensuring stringent quality control.
- **High Efficiency:** 100% copper construction provides excellent electrical efficiency and performance.
- **Durability:** Robust design ensures long service life, even in demanding industrial environments.
- **Customization:** Tailored solutions to meet specific welding needs, enhancing productivity and precision.
