

ELECTRA KOKO TAWA

NOIDA-INDIA | www.electrawelding.com India's Leading Manufacturers of Heavy Industrial Welding Equipments Since 1996

Ensure the product carries the KOKO-TAWA brand before purchasing any ELECTRA product.

Model: KPT-12IC

Overview

The **KPT-12IC-CUT 120** is a state-of-the-art plasma cutting machine designed for precision, efficiency, and versatility. Featuring advanced IGBT module-based technology, this digital machine delivers robust performance for industrial applications. With an integrated oil-free 415V 3-phase air compressor and an MMA welding function, this machine is ideal for cutting up to 25mm cleanly and provides external air input for cutting up to 35mm.

(Built-in compressor is recommended for onsite use only. Use External Compressor for continuous usage)

Key Features

Performance

- Cutting Capacity:
 - o Up to 25mm: Clean cut with the inbuilt compressor.
 - o Up to 35mm: Heavy-duty cut using external air input.
- Current Range: Upgraded 120A max output for enhanced performance.
- Voltage: Operates on 415V 3-phase input for industrial use.

Technology

- **IGBT Module-Based**: Ensures stable performance, high efficiency, and energy savings.
- **Digital Display**: Precise current settings for optimal cutting and welding accuracy.
- **Dual Functionality**: Integrated **MMA welding mode** for added versatility.

Compressor

- Inbuilt Oil-Free Air Compressor: Ensures reliable and consistent air supply for clean cuts.
- External Air Input Option: Allows enhanced cutting capacity up to 35mm.

Usability

- Lightweight and Compact Design: Easy to transport and handle.
- User-Friendly Interface: Intuitive controls with a bright digital display for seamless operation.

Safety

• Overload Protection: Advanced circuitry to safeguard against overcurrent and overheating.

Technical Specifications

Specification/Model		KPT-12AC	
Work mode		Cutting	Manual welding
Input	Power parameters	3-phase AC415V	
		50/60Hz	
	Rated input capacity	17.1kVA	
	Rated input current	30A	
	Cross sectional area of power input cable	≥4mm²	
	Air source	External compressed air (dry and free from water and oil)/built-in air compressor	
	Capacity of external gas source	≥150L	
	Pressure of external gas source	0.4Mpa-0.6Mpa	
	Power of built-in air compressor	1500W (3-phase AC415V power supply)	
Output	Average value of no-load voltage	307V	70V
	Peak value of no-load voltage	310V	72V
	Rated output current	100A	170A
	Rated operating voltage	120V	26.8V
	Current adjustment range	30A~100A	20A~170A
	Cutting and arc initiation mode	Non-contact	
	Recommended cutting thickness of common carbon steel	25mm	
	Max. cutting thickness of common carbon steel	40mm	
Duty cycle		60%@40°C	35%@40°C
Power factor COSφ		≥0.80	
Efficiency η		≥90%	
Insulation grade		Н	
Shell protection class		IP21S

Dimensions (L×W×H)	623mm×308mm×588mm	
Net weight	55KG	

Applications

- Metal Fabrication: Precision cutting for mild steel, stainless steel, and aluminum.
- Construction: Ideal for on-site operations with heavy-duty cutting needs.
- Repair and Maintenance: Multi-functional use for cutting and MMA welding.

Benefits

- Integrated air compressor eliminates the need for external units, reducing setup costs.
- Enhanced cutting power for a wide range of thicknesses and materials.
- Reliable and durable, suitable for demanding industrial environments.
