

ELECTRA KOKO TAWA

NOIDA-INDIA | www.electrawelding.com India's Leading Manufacturers of Heavy Industrial Welding Equipments Since 1996

Ensure the product carries the KOKO-TAWA brand before purchasing any ELECTRA product.

XE-500 & XE-600

WELDING RECTIFIER

TRANSFORMER-BASED

DC ARC WELDING RECTIFIER

Product Overview:

The XE-500 and XE-600 Transformer-Based DC Rectifier Arc Welding Machines are designed for heavy-duty industrial applications, providing robust performance and superior reliability. Engineered with advanced KOKO-TAWA Japanese technology, these machines ensure high-quality welding output and consistent performance across a wide range of tasks.

Key Features

- 1. High Current Output:
 - o XE-500: Delivers up to 500 Amperes.
 - o XE-600: Delivers up to 600 Amperes for enhanced welding capabilities.
- 2. **3-Phase Operation:**
 - Operates on a 415V, 3-phase power supply for stable and efficient performance.

ELECTRA and KOKO-TAWA are registered trademarks of Electra Koko Tawa Weld Pvt. Ltd. Unauthorized use is strictly prohibited. Always verify the KOKO-TAWA brand mark to ensure product authenticity and avoid imitations.

ELECTRA KOKO TAWA

NOIDA-INDIA | www.electrawelding.com India's Leading Manufacturers of Heavy Industrial Welding Equipments Since 1996

Ensure the product carries the KOKO-TAWA brand before purchasing any ELECTRA product.

3. Transformer-Based Design:

Incorporates advanced transformer technology to ensure consistent DC welding output.

4. Heavy-Duty Construction:

o Built with rugged materials resistant to heat and corrosion for long-lasting durability.

5. Efficient Cooling System:

o Advanced cooling technology ensures optimal performance even during extended operations.

6. Enhanced Welding Quality:

o Provides smooth and stable arc characteristics for superior weld quality.

7. Safety Features:

- o Integrated thermal overload protection to prevent overheating.
- Fully enclosed design to safeguard internal components from dust and debris.

8. Adjustable Welding Parameters:

o Easy-to-use regulator allows precise control of welding current.

9. Versatility:

o Compatible with a wide range of electrodes, suitable for materials such as mild steel, stainless steel, and cast iron.

Technical Specifications

Parameter	XE-500 Specification	XE-600 Specification
Input Voltage	415V AC	415V AC
Phases	3-Phase	3-Phase
Welding Current Range	50A – 500A	50A – 600A
Duty Cycle	100% at 400A, 60% at 500A	100% at 500A, 60% at 600A
Cooling System	Forced Air Cooling	Forced Air Cooling
Electrode Size	2.0mm – 4.0mm	2.0mm – 5.0mm

Applications

- Heavy structural fabrication.
- Shipbuilding and marine engineering.
- Pipeline welding.
- Industrial machinery maintenance.
- Construction and infrastructure projects.

Why Choose ELECTRA KOKO TAWA?

- Industry leaders with decades of expertise in welding technology.
- Trusted for high-quality, durable, and innovative products.
- Committed to using advanced KOKO-TAWA Japanese technology.
- Excellent after-sales service and technical support.
